I am an enthusiastic and hard working Graphic & Web Designer based in North County Dublin. I love my Job! I have over 10 years Graphic Design experience.

For the past couple of years I have also turned my attention to Web Design.

I work on my own initiative and meeting deadlines has been par for the course for me.

I have a good eye for detail, am reliable and easy to work with.

My versatility allows me to take different approaches to design.

I am looking to learn as well as contribute, and so expand my capabilities as a designer.
